Rights Respecting- Raising Awareness on children's rights

RIGHTS RESPECTING

We continue our work on developing children's understanding of the following article:

Article 5 (parental guidance and a child's evolving capacities) Governments must respect the rights and responsibilities of parents and carers to provide guidance and direction to their child as they grow up, so that they fully enjoy their rights. This must be done in a way that recognises the child's increasing capacity to make their own choices.

Article 6 (life, survival and development) Every child has the right to life. Governments must do all they can to ensure that children survive and develop to their full potential.
